Priority Type Legend	
Priority	Definition
Critical	A Change Request that needs to be implemented as an emergency. This is any CR that will fix an issue that stops FMS from achieving the FSA business needs.
High	A Change Request that effects FMS business needs and has a deadline date for implementation due to feeder system needs or FMS changes that effect transaction processing.
Medium	A Change Request that is not FMS business critical but would help increase work efficiency and effectiveness. This CR may be a reporting need, or reconciliation need between programs.
